

EXPERTS IN PATIENT HANDLING SOLUTIONS

COMMUNITY PATIENT HANDLING RANGE

Hospital Direct (**HD**) is a leading manufacturer and supplier of patient-handling solutions, operating in a fast-paced and dynamic industry to support people worldwide.

As a family-owned business established nearly 30 years ago, we pride ourselves on being a professional, multi-generational team with extensive experience, continuously innovating to deliver optimal, patient-centred care across all healthcare sectors.

Our products are not just backed by exceptional quality; they are complemented by robust training and in-depth knowledge, helping to ensure comfort, dignity, and safety wherever they are used.

Our mission is to empower healthcare professionals to provide safe, effective care, enhancing patient outcomes and promoting clinical wellbeing and we are committed to ensuring all our customers have the products they need to meet the unique requirements of their departmental needs.

HD'S COMMITMENT TO COMMUNITY

Experience counts, and for 26 years HD have worked with tens of thousands of healthcare professionals, and individuals in their own homes, to deliver solutions for the needs of the client. These solutions have proven invaluable to both the carer and the end-user alike, and this is why we are the go-to company for customer service and patient handling solutions.

Likewise, experience is essential from the practitioners themselves. The profession you operate in is so variable depending on individual client's needs, that there is no 'one-solution' fits all approach in every given situation. The hours of experience gained is an invaluable asset to your teams, clients, and local authorities who require the input from independent and council centred teams.

Not everyone has access to this experience though. Perhaps someone has just started out in the profession, or an individual may be needing solutions for their spouse so they can care for them at home.

No matter what level of experience you may have, we have designed our products to be used by all customers.

With ease of use in mind, HD has developed the widest range of self-manufactured patient handling support aids in the world, and it is the willingness to help all people no matter what the situation, that has led to the years of experience attained – making HD 'Experts in Patient Handling Solutions'.

WHAT'S YOUR PRICE?

Don't spend endless hours or even days waiting to get quotes and prices for equipment that either you or your clients need. HD have created an easy to use Quote System on its website allowing you to attain a quote, with a price, in as little as 3 minutes. Simply log in to our website, add products to a quote, and complete a simple form. Once we verify it you'll receive it directly into your in-box and can forward it on to your purchasing department for order. As simple as ABC.

HD KNOWLEDGE ZONE LAUNCHES

Over the years, HD has been at the forefront of developing patient handling equipment for all areas of healthcare.

Along the way, we have been asked to deliver various demonstrations, training, electronic modules, courses, and provide talks to all healthcare professionals globally.

All this has finally led to **HD Knowledge Zone**, a resource of practical and theoretical information all at your convenience, 24 hours a day, 7 days a week.

"**HD Knowledge Zone** is more than just 24/7 accessible training; it encompasses knowledge attained over the 27 years of experience working in the healthcare sector, from multiple employees and experts in the industry."

So, the question is how do you get a hold of this wealth of information and what do you need to know?

It simply depends on what you need, how much you want to engage, and when you want to know the answers.

At this point, **HD Knowledge Zone** consists of 6 resources for you to use at your disposal. These range from Face-to-Face Training, to Media Support Networks that include Product Demonstration Videos, Step-by-Step Photographs of products in use, User Instructions and additional literature. Or, you can simply have a friendly telephone call with one of us to get the answers you need. **HD Knowledge Zone** is now ready to use at a moment's notice.

See on the next page how **HD Knowledge Zone** can be used by you.

HD KNOWLEDGE ZONE OVERVIEW

FACE-TO-FACE LEARNING

Face-to-Face Learning is essential to all individuals and local authorities who are considering or have purchased our product ranges. These are free of charge.

Training sessions can be based on product ranges or exploration of specific organisational needs and commonly found problems, e.g. 'Getting legs into Bed'. If your organisation purchases our ranges, we will provide solutions, which many healthcare professionals face, for free.

Additionally, if your organisation is struggling with specific issues and situations, HD can offer a series of paid training courses, or can bespoke make you a required session. Please see the next page for detailed courses and enquire directly with us.

Finally, HD also have accredited trainers certified to provide RoSPA Level 3 'Train the Trainer' courses to groups of up to 12 people.

LIVE REMOTE TRAINING

Product Technical Support for remote workers is always needed but rarely available when you need it. Our website, which is built to cater for mobiles and tablets, has a full media library which can be accessed once a free account has been created. The media library has videos and photos of each of our products being demonstrated with both single and multiple carers involved. This is easily accessible and free to use. All you need to do is create an account on our website. You can also call us at anytime, or use our online chat which is accessible at www.hospitaldirect.co.uk.

24/7 ON-LINE TRAINING PORTAL

HD has created an online portal for all healthcare workers, which can be accessed 24 hours a day, 7 days a week, 365 days of the year. The portal consists of a series of CPD certified training courses covering a series of products and situations that any healthcare worker/carer may face when trying to achieve solutions for a client. Access is free to all customers.

PRODUCT TECHNICAL SUPPORT

HD Knowledge Zone is a wealth of information with practical help. You can access information by calling one of our dedicated customer support teams, contacting us via our online chat, emailing us, or by watching free and accessible online videos on each product page. To find the product, just simply type in the name/product code into our search box.

Many of our customers find that these options are enough. However, if additional support is required, simply create an account on our website and gain free access to the HD Knowledge Zone Media Library which shows a series of further videos, step-by-step photographs demonstrating the product in use, correct techniques, and useful PDF Guides.

Remember, Remote and Face-to-Face CPD Training Courses are also available to you and your teams.

LIVE WEBINARS

HD Knowledge Zone hosts a series of webinars, covering a diverse range of different topics that are common to healthcare professionals across the Acute and Community market. These are available to anyone, as well as individuals in their own homes looking after loved ones. These are free to attend and will be held in our fully equipped training room.

Here you will find answers, solutions and effective techniques to solve a series of difficult scenarios that you face on a day-to-day basis. Join us to explore these solutions, and see how HD Knowledge Zone can be a resource to help make your job so much simpler, more efficient and more effective.

HEALTH AND SAFETY TRAINING

Every organisation with five or more employees are required to provide basic health and safety training to all of their employees. With over 40 main courses, and over 35 refresher courses, there is always something for everyone in **HD Knowledge Zone**.

'Lone and Remote Workers' and 'Safer Driving Awareness', are just two examples of our essential training courses that are ideally suited to community and local authority professionals. These are CPD certified and written by professionals across many industries.

SUPPORT FROM START TO FINISH >>>>>

HD KNOWLEDGE ZONE

GET TRAINED, GET QUALIFIED, GET TRAINING!

HD Knowledge Zone offer a series of comprehensive training courses to any individual or groups, and this is why HD are the go-to company for:

Patient handling
product solutions

Practical information,
technical help, advice,
and support

Training, free information,
product demonstrations
and training courses

WHY TRAIN WITH HD AND HOW YOU GAIN FROM HD KNOWLEDGE ZONE

To anyone working in the healthcare sector, it becomes evident that no patient is the same. Therefore, no situation is the same and what works for one client does not necessarily work for another. Environments are different, equipment varies, and client needs are unique to the individual. However, although we can find that each individual requires something new, there are practices and techniques which remain the same.

Therefore, **HD Knowledge Zone** provides a series of in-house, and off-site training courses which cater for multiple client situations.

CHOOSE HOW YOU WANT TO BE TRAINED

FACE-TO-FACE RoSPA ACCREDITED CERTIFICATIONS

2-Day RoSPA Level 3 – Train the Trainer Course

Working with industry experts and alongside our own HD Trainers, HD offer our trainees a Level 3 National 'Train the Trainer' Award for the care and nursing home sector. Accredited by RoSPA, and OFQUAL regulated, the course will ensure that you are comfortable and confident in all areas of your training, and in line with the set standards of the Care Quality Commission (CQC).

FACE-TO-FACE TRAINING COURSES

RoSPA Accredited Train the Trainer Courses – facilitated by HD

Regulated by OFQUAL and accredited by RoSPA Qualifications, **HD Knowledge Zone** works with the best trainers in the UK to provide accredited education to healthcare professionals.

Most of the courses we offer are a Train the Trainer qualification, but we can also provide more basic Manual Handling and People Handling courses if needed.

Whether we run courses at your premises, or you utilise our very own fully equipped training facility, we have a solution to meet your needs.

Supported by a state-of-the-art training portal, the course provides all the tools a delegate would need to effectively deliver:

- > INTERNAL TRAINING
- > WORKBOOKS
- > PRESENTATIONS
- > HOW TO VIDEOS AND SAFE SYSTEMS OF WORK
- > PLUS MUCH MORE

HD Knowledge Zone facilitates training that teaches techniques that work, making People Handling so much easier and safer

Delegates are given access to a state-of-the-art online training portal

Full pre and post course training support for every delegate

If you only need a small number of delegates trained, we can offer open courses at our very own training facility

Training at your own premises, or at a central location

“New and Improved Practices – It is a new way of working but it is a better way.”

Clun Valley is at the heart of everything we do

IS HD A GREEN COMPANY?

EXPLORING HD'S GREEN SUSTAINABILITY PLAN

As far as is possible, could the healthcare service find a 'greener' supplier to work with?

UK manufacturing has its benefits, and some of those benefits include:

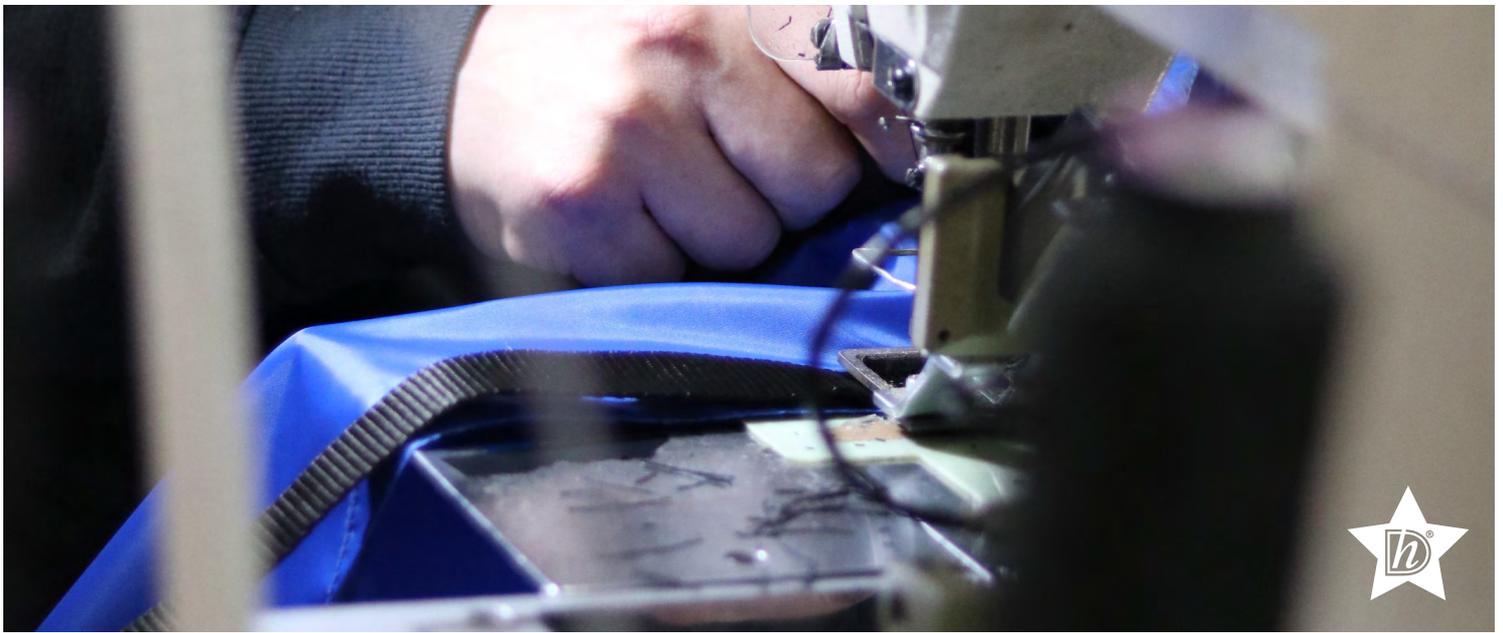

EFFICIENT MANUFACTURING – more productivity, reduced emissions, greater output = **more green**. Faster production methods result in less energy used.

CLEANER ENERGY SOURCES – Continued research into renewable energies, higher sustainability, lower emissions = **more green**. UK manufacturing processes are often deemed a lot cleaner than some methods used in other countries.

NATIONAL DELIVERY NETWORK – *less waiting times, less cost, lower carbon emissions* = **more green**. All of our products are delivered from within the UK, therefore your products do not need to travel long distances in order to reach you! This reduces emissions and ensures a cleaner process from production to the end-user.

Below is a selection of additional processes which HD are investing into to make Carbon Neutral as realistic as possible:

-  Hydrogen Power
-  Solar Power
-  Zero carbon
-  Possibly growing our own fuel = Miscanthus and tree recycling
-  Tree planting
-  Exploring new premises reaching BREEAM Certification Standards
-  Green status with Shropshire Council
-  State of the Art Solar Panel Energy
-  Paper recycling (cardboard, paper into briquettes etc)
-  Alternative Laundry systems (non-toxic, zero-heating and computerised guarantee of decontamination)
-  Moving from Diesel engines to hybrid / electric cars
-  State-of-the-Art workplace car recharging points
-  Local/domestic raw materials sourcing to ensure low carbon emissions and guaranteed supply

Manufactured in our own factory in Shropshire

EXCLUSIVE PRODUCTS BRANDS WE MANUFACTURE THAT YOU CAN TRUST

From concept, to development, and into production, our exclusive patient handling equipment ranges are designed to address the specific needs of both health care professionals and those receiving care.

WELCOME TO HD COMMUNITY PRODUCT RANGE

FIND ALL THE SOLUTIONS YOU NEED TO PROVIDE SAFER
PATIENT FOCUSED CARE

“Hospital Direct aren’t just a
product company, they’re a
solutions company”

Clinical Advisor

HD provide expert solutions that help carers easily manoeuvre people into a virtually endless range of positions so that the patient remains comfortable at all times, regardless of surface. With a wide range of chair positioning aids, we manufacture and provide easy to use solutions which can be utilised in a variety of settings, whether in the house, bathroom, lounge, car, care home, or hospital. Whether repositioning, getting comfy, or remaining in a secure location, moving when in a seated position can be a difficult task for many people to achieve, and certain care needs to be ensured to protect the individual. HD have many of these solutions which we are sure you will find in this section.

ANTI-SLIP FOOT PAD

A unique safety aid that helps to prevent slipping when patients are getting in and out of bed or sitting and rising from a chair.

NON-SLIP CHAIR PAD

Those who slip down in chairs can use this Non-Slip Chair Pad to maintain a comfortable position while sitting up.

SMARTMOVER™

A wheelchair posture aid helping patients sit comfortably in wheelchairs.

GLIDE AND LOCK – CHAIR

Allowing users to position themselves comfortably in chairs with minimal support from carers.

GLIDE AND LOCK – PRESSURE REDUCING

An innovative One-Way Slide that ensures a pressure cushion does not slip from beneath a patient when sat on.

POSITIONING – BED

Moving with Dignity is required in every area of healthcare, and HD have a full selection of bed positioning systems that can be used for dignified care, whilst allowing the carer to do their job with maximum efficiency. Our positioning aids are used across the world to support the individual requirements of all who require moving and handling, regardless of position, location, or condition. Whether the user is continuously bed bound or only requires support at certain times throughout the day, HDs bed positioning Aids will provide you with the tools.

ANTI-SLIP FOOT PAD

A unique safety aid that helps to prevent slipping when patients are getting in and out of bed or sitting and rising from a chair.

ANTI-SLIP SLIDE SHEET

Allowing patients to reposition themselves in bed without slipping.

BED LOOPS

Patients who struggle to turn in bed can use these Bed Loops to securely reposition themselves and safely move to the edge of the bed.

HD DELUXE™ CRASH/FALL MATS

Ensure that a bedroom is safe and secure with our HD Deluxe™ cushioned Crash Mat range.

HDDELUXE™

EASY LEG TURNER

Simple but brilliant, this leg lifter allows a carer to safely raise a person's legs and swivel them into or out of bed.

GLIDE AND LOCK WITH ROTARY LEG LIFTER

Making getting into and out of bed comfortable for patients who have limited mobility.

TRANSFER – CHAIR

Many people require healthcare seating solutions in their daily tasks and HD are pleased to provide many of those unique solutions as support aids for both healthcare professionals, and individuals in their own home. Getting in and out of a seated position can be difficult for many, but HD aims to lighten that burden by offering a range of products which help healthcare professionals and individuals perform seated transfers with ease and comfort. Transferring into and out of chairs doesn't have to be difficult, and that's why we offer a series of product ranges that complement your task with maximum ease of use.

HD EEZI-TRANSFER™ CURVED SITTING BOARD

Our new Eezi-Transfer™ Curved Sitting Board has a Safe Working Load of 265kg and is perfect for sliding between two surfaces.

HD DELUXE™ FOOTSTOOL

The Foot Stool is designed to provide extra height that delivers added comfort and stability. It can be used to administer personal care.

LEG LIFTER

Where lifting legs into bed is a problem, this wipeclean leg lifter allows users to get into and out of bed independently.

ROTA CUSHION

An innovative swivel seat for car use – allows you to stay safe during transfers and when getting in and out of vehicles.

ROTA FOOT PAD

An ideal swivel foot pad for those who struggle to move from a bed to a chair or wheelchair.

TRANSFER BOARD SLIDE – WASHABLE

The Transfer Board Slide makes moving between beds, chairs and cars easy for those who have reduced mobility.

TO VIEW OUR FULL RANGE OF TRANSFER PRODUCTS, VISIT OUR WEBSITE AT
WWW.HOSPITALDIRECT.CO.UK

Transferring onto and off from a bed can be daunting, but the right equipment is a great support and comfort to the carer and patient when these transfers are taking place. Some items are used to bridge gaps between two surfaces, allowing transfers onto different equipment to take place such as toileting or wheelchair use. Equally, these manoeuvres can be necessary for bed-to-bed transfers. Whatever the need or purpose, equipment is essential to protect all involved so that the client is made to feel sure and stable throughout the process. HD helps facilitate this need through its various products which you will find in the section below.

HD EEZI-TRANSFER™ BRIDGING BOARD

Our new Eezi-Transfer™ Bridging Boards are perfect for transfer between two surfaces, using these to bridge the gap.

ECONOMY EXTENSION STRAPS

The Economy Extension Straps minimise the risk of carer injuries during patient supine transfers.

HD EEZI-TRANSFER™ OVAL BOARD

Our new Eezi-Transfer™ Oval Boards are for those needing to create space between a patient and a surface, and to fit slings.

SLIDEEZI® SLIDE SHEET RANGE

An ideal range of products for carers who need to turn, transfer or re-position patients up and down in beds and trolleys.

SUPPORTIVE PRODUCTS

Personal Care is essential to the health and well-being of every patient, and dignity is of the utmost importance for each person who requires support in this area. Certain situations mean that a client may require support in the area of self-cleaning and HD offers a variety of solutions for this purpose, from Paediatric to Bariatric patients. Additionally, support may be needed in other tasks which many of us would deem simple, every day activities such as dressing and being dressed. HD considers such situations in life and offers unique exclusive solutions which will help you conduct these activities when the client needs such support.

EASIDRESS – WASHABLE

EasiDress dressing aids make getting ready easier, both for independent users and those who need support from a carer.

FISHERMANS LEGS / PRO DRESS ASSIST PACK

Getting dressed in bed has never been easier – the Fisherman's Legs enable dignified dressing for patients who need carer assistance.

HANDLING BELTS

Our range of Handling Belts allow carers to support patients into and out of sitting positions and help them walk around safely.

HIP ASSIST PACK

The Hip Assist Pack combines a series of essential in-bed aids for those who are recovering from hip replacements.

HD DELUXE™ LIMB PADS

A series of deluxe pads and wedges designed to provide comfort and pressure relief for limbs and various parts of the body.

HDDELUXE™

OCTOPANNUS SUPPORT BELT

Offering the pannus support patients need during surgery and recovery.

WWW.HOSPITALDIRECT.CO.UK

When a person needs to travel, they should be able to travel with confidence and in comfort! It's important for people to maintain their independence and feel free to travel from A to B. Accessing vehicles is sometimes daunting for individuals, couples, or even practitioners who are helping their clients. This doesn't have to be the case. With a series of solutions, HD can provide simple to use systems which promote independence and security while getting 'out and about'.

SPONGES – BED / BATH

Ideal for patients who need a full body wash but are unable to use a shower.

CAR ASSIST PACK – CARER ASSISTED

The Car Assist Pack – Carer Assisted is a selection of car mobility aids that makes journeys easier for those who struggle with vehicle access. Also available as a Self Assisted/ Unassisted Pack.

CAR SLIDE SHEET

The Car Slide Sheet transforms any car seat into a slide seat, ideal for those who need a slippery surface to get into and out of vehicles.

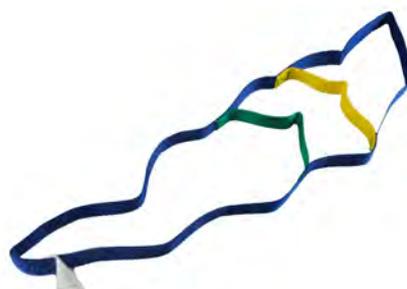

STRAP ASSIST – WASHABLE

An ideal solution to help a carer support a patient. Lifting legs, helping a collapsed patient stand to their feet, or simply helping a patient up in bed.

CAR DOOR PULL STRAP

Helping patients and clients rediscover their independence so they can embark on car journeys more easily.

HANDYBAR®

Car mobility aid that helps those with limited mobility get into and out of cars without assistance from a carer.

ACCREDITATIONS

ISO 14001 is an internationally agreed standard that sets out the requirements for an environmental management system. It helps organisations improve their environmental performance through more efficient use of resources and reduction of waste. It also helps to reduce operating costs and helps maintain margin under price pressure. Being awarded ISO14001 boosts the reputation of HD and gives access to customers that demand their suppliers hold a certified environmental management standard.

ISO 45001 is the world's international standard for occupational health and safety, issued to protect employees and visitors from work-related accidents and diseases. We are not required by law to implement ISO 45001, but it can help provide a structured framework for ensuring a safe and healthy workplace. Being awarded ISO 45001 status reduces downtime and overall costs, which can be reflected to our customers.

ISO 9001 is the international standard that specifies requirements for a quality management system (QMS). We use the standard to demonstrate the ability to consistently provide products and services that meet customer and regulatory requirements. Obtaining this accreditation proves that HD make a commitment to achieving consistent quality. We always aim to strive to ensure a high customer satisfaction and higher perceived quality of customer service.

CPD stands for Continuing Professional Development. CPD is recognised as an independent accreditation that supports the obligations and policies of professional bodies and academic institutes. HD have our courses approved by CPD to ensure that expected levels of training is provided for healthcare professionals. By having CPD approved courses, we can offer quality training that meets set requirements.

MEMBERSHIPS

Shropshire Chamber of Commerce allows us to integrate with other local businesses and build connections. Over the years, we have supported other businesses to develop trade and access unique and beneficial services. We have also continued to build our employees personal development through a series of courses held and promoted by the Shropshire Chamber. It's a pleasure to be a trusted long-term member of the chamber, and we are proud to partner with them.

Cool Shropshire is the Shropshire Council initiative for an environmentally clean and zero-carbon operation by 2030 and covers all the major pillars of environmental care. HD is a keen supporter of this and other initiatives – including Healthcare market initiatives, that contribute to a cleaner living and working environment. HD is keenly involved with Shropshire projects that deliver power from green hydrogen.

Medilink Midlands is the Midlands Life Sciences industry association with a vision to stimulate the growth of the Midlands life science sector by helping companies establish, develop and grow. Its network of more than 5,200 contacts in over 2,300 organisations represents all aspects of the sector; from multi-nationals to high-potential start-up companies, as well as the NHS and Universities.

The National Back Exchange (NBE) is a leading authority in moving and handling. HD has worked with the NBE for over a decade and is recognised as a leading support in the industry through our product solutions, leading knowledge base, and services. Being a member shows commitment to the industry and keeps HD at the forefront of safe practices, whilst giving our customers assurance that we are experts in our field. We are always proud to work with the best in the business

Zero Carbon Shropshire is an action-driven partnership of local people and businesses, all dedicated to helping our county fight climate change. Together, we're taking a coordinated, collaborative response to the climate and ecological crisis at the local level.

Such a pleasant experience in dealing with Hospital Direct. A company who actually cares.
