

## ENHANCING CLIENT COMFORT AND SAFETY WITH HD DELUXE™ LIMB PADS

At Hospital Directs, we are committed to delivering high-quality solutions that enhance the safety and comfort of both clients and healthcare professionals. The HD Deluxe™ Limb Pads, recently received feedback from Elizabeth Hollows, a respected Physiotherapist and Manual Handling Specialist.

### CHALLENGE

Working with individuals who have altered muscle tone presents unique challenges, especially during bed movements and repositioning.

Independent Manual Handling  
Specialist and Expert Witness

Providing adequate support and pressure relief is crucial to maintaining client safety and comfort, while also reducing the risk of injury.

# SOLUTION: HD DELUXE™ LIMB PADS

Elizabeth incorporated our HD Deluxe™ Limb Pads into her practice and quickly saw the benefits which were:

- Positioning and Supporting Limbs & Trunks. The limb pads provided reliable support during bed movements, particularly for clients with altered muscle tones.
- Enhancing Comfort: The soft, adaptive design made a noticeable difference in client comfort.
- Reducing Fracture Risk: By stabilising the limbs, the pads helped to prevent unnecessary pressure and potential injuries.
- Improving Limb Stabilisation: Multiple pads could be used together to enhance support around various body parts.

## PRODUCT FEATURES NOTED BY THE SPECIALIST

- Flexible and Easy to Shape: Molds gently around areas needing additional pressure relief.
- Customisable Application: Multiple pads can be combined for tailored support.
- Effective Stabilisation: Designed for secure and adaptable body support.
- High-Quality Materials: Vapour permeable, 2-way stretch fabric that is also antimicrobial.

## CONCLUSION

The positive feedback from Elizabeth Hollows underscores the impact of the HD Deluxe™ Limb Pads in real-world healthcare settings. As always, we're proud to support professionals in delivering the highest level of care with innovative, practical, and affordable solutions.
