

EXPERTS IN PATIENT HANDLING SOLUTIONS

HOSPITAL PATIENT HANDLING RANGE

Hospital Direct (**HD**) is a leading manufacturer and supplier of patient-handling solutions, operating in a fast-paced and dynamic industry to support people worldwide.

As a family-owned business established nearly 30 years ago, we pride ourselves on being a professional, multi-generational team with extensive experience, continuously innovating to deliver optimal, patient-centred care across all healthcare sectors.

Our products are not just backed by exceptional quality; they are complemented by robust training and in-depth knowledge, helping to ensure comfort, dignity, and safety wherever they are used.

Our mission is to empower healthcare professionals to provide safe, effective care, enhancing patient outcomes and promoting clinical wellbeing and we are committed to ensuring all our customers have the products they need to meet the unique requirements of their departmental needs.

HD'S COMMITMENT TO OUR HOSPITALS

Experience counts and for nearly 30 years HD has worked with tens of thousands of healthcare professionals to deliver solutions for their specific departmental needs.

From Emergency Departments to Physiotherapy Clinics, from Intensive Care Units to Operating Theatres, from X-Ray Departments to Mortuaries HD has a range of solutions that ensure that staff can

move their patients with care and dignity and with due regard for their own safety and those of their colleagues.

These solutions are used in NHS Trusts and private hospitals throughout the UK and that is why we are the go to company for patient handling solutions, couple with an unrivalled customer service.

WHAT'S YOUR PRICE?

Don't spend endless hours or even days waiting to get quotes and prices for equipment that either you or your clients need. HD have created an easy to use Quote System on its website allowing you to attain a quote, with a price, in as little as 3 minutes. Simply log in to our website, add products to a quote, and complete a simple form. Once we verify it you'll receive it directly into your in-box and can forward it on to your purchasing department for order. As simple as ABC.

HD KNOWLEDGE ZONE LAUNCHES

Over the years, HD has been at the forefront of developing patient handling equipment for all areas of healthcare.

Along the way, we have been asked to deliver various demonstrations, training, electronic modules, courses, and provide talks to all healthcare professionals globally.

All this has finally led to **HD Knowledge Zone**, a resource of practical and theoretical information all at your convenience, 24 hours a day, 7 days a week.

"**HD Knowledge Zone** is more than just 24/7 accessible training; it encompasses knowledge attained over the 27 years of experience working in the healthcare sector, from multiple employees and experts in the industry."

So, the question is how do you get a hold of this wealth of information and what do you need to know?

It simply depends on what you need, how much you want to engage, and when you want to know the answers.

At this point, **HD Knowledge Zone** consists of 6 resources for you to use at your disposal. These range from Face-to-Face Training, to Media Support Networks that include Product Demonstration Videos, Step-by-Step Photographs of products in use, User Instructions and additional literature. Or, you can simply have a friendly telephone call with one of us to get the answers you need. **HD Knowledge Zone** is now ready to use at a moment's notice.

See on the next page how **HD Knowledge Zone** can be used by you.

HD KNOWLEDGE ZONE OVERVIEW

FACE-TO-FACE LEARNING

Face-to-Face Learning is essential to all individuals and local authorities who are considering or have purchased our product ranges. These are free of charge.

Training sessions can be based on product ranges or exploration of specific organisational needs and commonly found problems, e.g. 'Getting legs into Bed'. If your organisation purchases our ranges, we will provide solutions, which many healthcare professionals face, for free.

Additionally, if your organisation is struggling with specific issues and situations, HD can offer a series of paid training courses, or can bespoke make you a required session. Please see the next page for detailed courses and enquire directly with us.

Finally, HD also have accredited trainers certified to provide RoSPA Level 3 'Train the Trainer' courses to groups of up to 12 people.

LIVE REMOTE TRAINING

Product Technical Support for remote workers is always needed but rarely available when you need it. Our website, which is built to cater for mobiles and tablets, has a full media library which can be accessed once a free account has been created. The media library has videos and photos of each of our products being demonstrated with both single and multiple carers involved. This is easily accessible and free to use. All you need to do is create an account on our website. You can also call us at anytime, or use our online chat which is accessible at www.hospitaldirect.co.uk.

24/7 ON-LINE TRAINING PORTAL

HD has created an online portal for all healthcare workers, which can be accessed 24 hours a day, 7 days a week, 365 days of the year. The portal consists of a series of CPD certified training courses covering a series of products and situations that any healthcare worker/carer may face when trying to achieve solutions for a client. Access is free to all customers.

PRODUCT TECHNICAL SUPPORT

HD Knowledge Zone is a wealth of information with practical help. You can access information by calling one of our dedicated customer support teams, contacting us via our online chat, emailing us, or by watching free and accessible online videos on each product page. To find the product, just simply type in the name/product code into our search box.

Many of our customers find that these options are enough. However, if additional support is required, simply create an account on our website and gain free access to the HD Knowledge Zone Media Library which shows a series of further videos, step-by-step photographs demonstrating the product in use, correct techniques, and useful PDF Guides.

Remember, Remote and Face-to-Face CPD Training Courses are also available to you and your teams.

LIVE WEBINARS

HD Knowledge Zone hosts a series of webinars, covering a diverse range of different topics that are common to healthcare professionals across the Acute and Community market. These are available to anyone, as well as individuals in their own homes looking after loved ones. These are free to attend and will be held in our fully equipped training room.

Here you will find answers, solutions and effective techniques to solve a series of difficult scenarios that you face on a day-to-day basis. Join us to explore these solutions, and see how HD Knowledge Zone can be a resource to help make your job so much simpler, more efficient and more effective.

HEALTH AND SAFETY TRAINING

Every organisation with five or more employees are required to provide basic health and safety training to all of their employees. With over 40 main courses, and over 35 refresher courses, there is always something for everyone in **HD Knowledge Zone**.

'Lone and Remote Workers' and 'Safer Driving Awareness', are just two examples of our essential training courses that are ideally suited to community and local authority professionals. These are CPD certified and written by professionals across many industries.

SUPPORT FROM START TO FINISH >>>>>

HD KNOWLEDGE ZONE

GET TRAINED, GET QUALIFIED, GET TRAINING!

HD Knowledge Zone offer a series of comprehensive training courses to any individual or groups, and this is why HD are the go-to company for:

Patient handling
product solutions

Practical information,
technical help, advice,
and support

Training, free information,
product demonstrations
and training courses

WHY TRAIN WITH HD AND HOW YOU GAIN FROM HD KNOWLEDGE ZONE

To anyone working in the healthcare sector, it becomes evident that no patient is the same. Therefore, no situation is the same and what works for one client does not necessarily work for another. Environments are different, equipment varies, and client needs are unique to the individual. However, although we can find that each individual requires something new, there are practices and techniques which remain the same.

Therefore, **HD Knowledge Zone** provides a series of in-house, and off-site training courses which cater for multiple client situations.

CHOOSE HOW YOU WANT TO BE TRAINED

FACE-TO-FACE RoSPA ACCREDITED CERTIFICATIONS

2-Day RoSPA Level 3 – Train the Trainer Course

Working with industry experts and alongside our own HD Trainers, HD offer our trainees a Level 3 National 'Train the Trainer' Award for the care and nursing home sector. Accredited by RoSPA, and OFQUAL regulated, the course will ensure that you are comfortable and confident in all areas of your training, and in line with the set standards of the Care Quality Commission (CQC).

FACE-TO-FACE TRAINING COURSES

RoSPA Accredited Train the Trainer Courses – facilitated by HD

Regulated by OFQUAL and accredited by RoSPA Qualifications, **HD Knowledge Zone** works with the best trainers in the UK to provide accredited education to healthcare professionals.

Most of the courses we offer are a Train the Trainer qualification, but we can also provide more basic Manual Handling and People Handling courses if needed.

Whether we run courses at your premises, or you utilise our very own fully equipped training facility, we have a solution to meet your needs.

Supported by a state-of-the-art training portal, the course provides all the tools a delegate would need to effectively deliver:

- > INTERNAL TRAINING
- > WORKBOOKS
- > PRESENTATIONS
- > HOW TO VIDEOS AND SAFE SYSTEMS OF WORK
- > PLUS MUCH MORE

HD Knowledge Zone facilitates training that teaches techniques that work, making People Handling so much easier and safer

Delegates are given access to a state-of-the-art online training portal

Full pre and post course training support for every delegate

If you only need a small number of delegates trained, we can offer open courses at our very own training facility

Training at your own premises, or at a central location

“New and Improved Practices – It is a new way of working but it is a better way.”

Clun Valley is at the heart of everything we do

IS HD A GREEN COMPANY?

EXPLORING HD'S GREEN SUSTAINABILITY PLAN

As far as is possible, could the healthcare service find a 'greener' supplier to work with?

UK manufacturing has its benefits, and some of those benefits include:

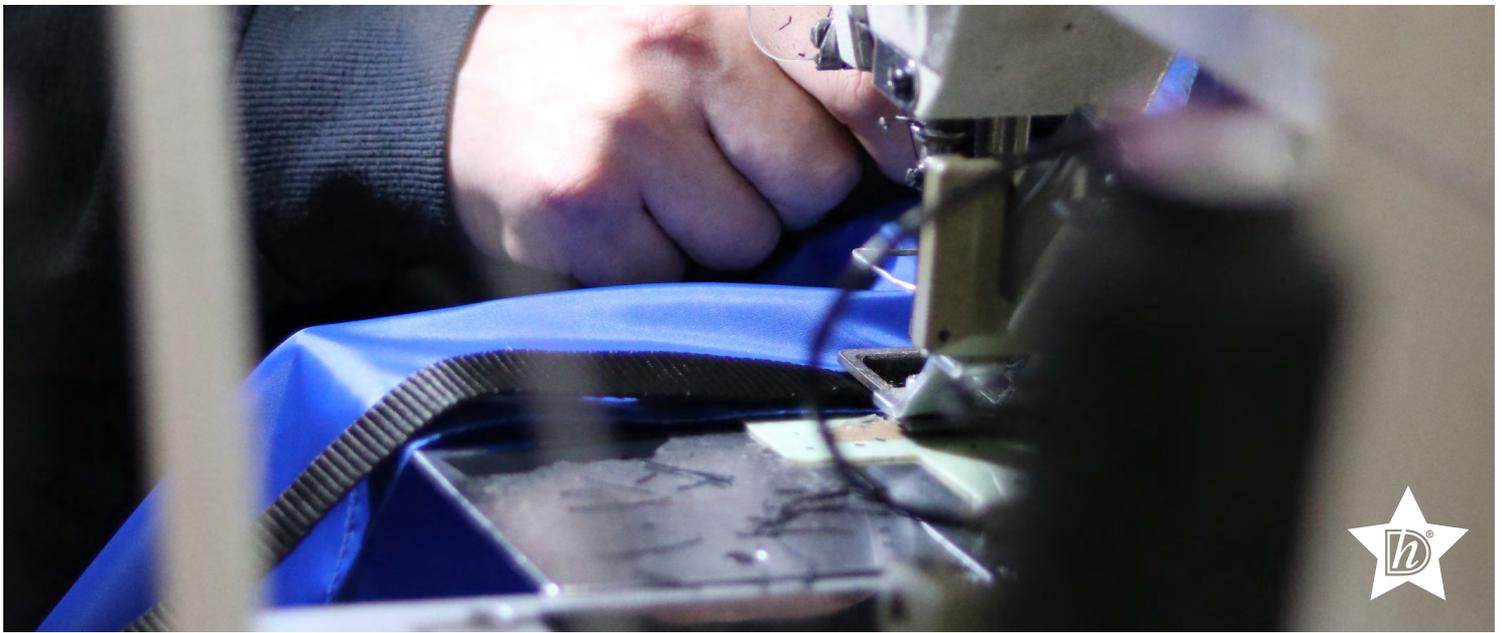

EFFICIENT MANUFACTURING – more productivity, reduced emissions, greater output = **more green**. Faster production methods result in less energy used.

CLEANER ENERGY SOURCES – Continued research into renewable energies, higher sustainability, lower emissions = **more green**. UK manufacturing processes are often deemed a lot cleaner than some methods used in other countries.

NATIONAL DELIVERY NETWORK – *less waiting times, less cost, lower carbon emissions* = **more green**. All of our products are delivered from within the UK, therefore your products do not need to travel long distances in order to reach you! This reduces emissions and ensures a cleaner process from production to the end-user.

Below is a selection of additional processes which HD are investing into to make Carbon Neutral as realistic as possible:

-  Hydrogen Power
-  Solar Power
-  Zero carbon
-  Possibly growing our own fuel = Miscanthus and tree recycling
-  Tree planting
-  Exploring new premises reaching BREEAM Certification Standards
-  Green status with Shropshire Council
-  State of the Art Solar Panel Energy
-  Paper recycling (cardboard, paper into briquettes etc)
-  Alternative Laundry systems (non-toxic, zero-heating and computerised guarantee of decontamination)
-  Moving from Diesel engines to hybrid/electric cars
-  State-of-the-Art workplace car recharging points
-  Local/domestic raw materials sourcing to ensure low carbon emissions and guaranteed supply

Manufactured in our own factory in Shropshire

EXCLUSIVE PRODUCTS BRANDS WE MANUFACTURE THAT YOU CAN TRUST

From concept, to development, and into production, our exclusive patient handling equipment ranges are designed to address the specific needs of both health care professionals and those receiving care.

PRODUCT SPOTLIGHT

OCTOPANNUS

Offering the pannus support bariatric patients need during surgery and recovery.

SLIDEEZI® SLIDE SHEET RANGE

Slide sheets are a toolbox staple and should never be underestimated. The ease with which you, as a healthcare provider can manoeuvre the person in your care with just two thin sheets of fabric is borderline magic. Having manufactured them for decades, our quality and range is unrivalled. As well as helping to re-position patients, they reduce shear and friction, and therefore the risk of skin damage. Risk of MSK injuries to staff is also reduced when less physical effort is required to move people.

SLIDEEZI® FLAT SHEET WITH HANDLES

An ideal range of products for carers who need to turn, transfer or re-position patients up and down in beds and trolleys.

SLIDEEZI® FLAT SHEET WITHOUT HANDLES

The Slideezi® Flat Slide Sheet is ideal for carers who need to turn, transfer or re-position patients up and down in beds and trolleys.

SLIDEEZI® J-PACK™

Consisting of two Slideezi Flat Sheets – one with handles, one without for easy turning, swivelling or sliding patients.

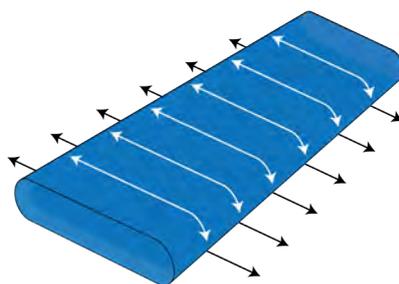

SLIDEEZI® TUBULAR SLIDE SHEET

Re-position your patients safely and easily with these superb Tubular Slide Sheets.

SLIDEEZI® TURNING SLIDE SHEET

Turning Slide Sheets make it easier to perform patient turning and lateral transfer manoeuvres.

POSITIONING/TRANSFER CHAIR

Our HD Eezi-Transfer™ range offers ergonomic, lightweight transfer solutions designed for comfort and durability, ideal for various care settings. Manufactured in the UK from robust HDPE, these boards feature smooth, rounded edges for seamless use and exceptional load capacity. Beyond the sitting transfer boards, we are recognised for our extensive selection of quality small equipment, including innovations like the Glide and Lock, which supports mobility and enhances care for healthcare professionals and users – providing reliable performance at excellent value.

HD EEZI-TRANSFER™ BRIDGING BOARD

Our new Eezi-Transfer™ Bridging Boards are perfect for transfer between two surfaces, using these to bridge the gap.

HD EEZI-TRANSFER™ CURVED SITTING BOARD

Our new Eezi-Transfer™ Curved Sitting Board has a Safe Working Load of up to 350kg or 450kg and is perfect for transferring between two surfaces.

HD EEZI-TRANSFER™ OVAL BOARD

Our new Eezi-Transfer™ Oval Boards are for those needing to create space between a patient and a surface, and to fit slings.

PRODUCT SPOTLIGHT

GLIDE AND LOCK RANGE

Created for people with limited mobility who gradually find themselves sliding down their bed or chair and have inadequate strength to be able to push themselves back up. Their discomfort and frustration is often troubling for them. Even for the most able of patients, it can be physically awkward and demanding to help them correct their position. So anything that assists – and reduces the frequency – has to be worth consideration.

TO VIEW OUR FULL RANGE OF POSITIONING PRODUCTS, VISIT OUR **WEBSITE** AT
WWW.HOSPITALDIRECT.CO.UK

“You provide lots of useful products and the website is easy to navigate and locate the items required”
Amy Evans, Community Occupational Therapist

ANTI-SLIP FOOT PAD

A unique safety aid that helps to prevent slipping when patients are getting in and out of bed or sitting and rising from a chair.

NON-SLIP CHAIR PAD

Those who slip down in chairs can use this Non-Slip Chair Pad to maintain a comfortable position while sitting up.

HANDLING BELTS

Our range of Handling Belts allow carers to support patients into and out of sitting positions and help them walk around safely.

HD DELUXE™ FOOT STOOL

The Foot Stool is designed to provide extra height that delivers added comfort and stability. It can be used to administer personal care.

HDDELUXE™

LEG LIFTER

Where lifting legs into bed is a problem, this wipeclean leg lifter allows users to get into and out of bed independently.

TRANSFER BOARD SLIDE

The Transfer Board Slide makes moving across a transfer board between beds, chairs and cars easy for those who have reduced mobility.

WWW.HOSPITALDIRECT.CO.UK

POSITIONING – BED

Patients undergoing rehabilitation often require specialised equipment to address mobility challenges when repositioning in bed. Our innovative small-scale solutions are thoughtfully designed to enhance bed mobility, whether independently or with assistance.

ANTI-SLIP SLIDE SHEET

Allowing patients to reposition themselves on the edge of a bed without slipping.

BED LOOPS

Patients who struggle to turn in bed can use these Bed Loops to securely reposition themselves and safely move to the edge of the bed.

SLIPPY DISPOSABLE MATTRESS COVER

Our Slippy Disposable Mattress Covers make it easy to turn patients without constantly inserting slide sheets.

GLIDE CUSHION/ IN-BED SELF TURN

An innovative patient turning system, helping patients to rotate themselves independently and in comfort.

GLIDE AND LOCKS – BED

A handy one-way slide sheet for patients who need help to sit up in bed.

SLIPPY SLEEVES

Perfect to reduce friction when smoothing out a patients skin, performing positional adjustments such as moving pillows under a client head and when inserting slings/ other material.

TO VIEW OUR FULL RANGE OF POSITIONING PRODUCTS, VISIT OUR **WEBSITE** AT **WWW.HOSPITALDIRECT.CO.UK**

“These in-situ slide sheets deliver the best value to community equipment services.”

Senior Occupational Therapist

FLEXICARE 4-WAY

Helping carers perform easy, safe patient manoeuvres for 24/7 in-bed care.

HD DELUXE™ BED POSITIONING WEDGES

This larger wedge is great for plus+ size bariatric patients who require support and stability in bed.

HDDELUXE™

HD DELUXE™ LIMB PADS

A series of deluxe pads and wedges designed to provide comfort and pressure relief for limbs and various parts of the body.

HDDELUXE™

ROMA™ MATTRESS COVER

Making patient repositioning easier for both carers and patients.

PRODUCT SPOTLIGHT

SIBA® – SATIN IN-BED ASSISTANCE

Our **SIBA® Satin Ranges** help people when repositioning in bed. All **SIBA® Base Sheets** allow safe and easy repositioning for people in bed enabling them to turn easily from side to side but not slip down.

All **SIBA® Top Sheets** are designed to be used in combination with our **SIBA® Base Sheets** by single or multiple carers to reposition a person in bed. If a person needs assisted repositioning, this is the sheet that the patient lies on and which is used for repositioning around the bed.

Certified benefits:

- Body Pressure Mapped
- Wash up to 90°C
- Dynamic mattress air hose fitting

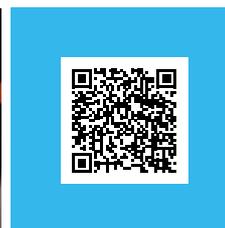

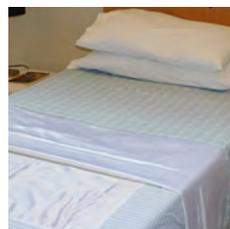

Suitable for patients up to 400kg Safe Working Load (SWL)

Breathable

LEGS INTO BED

In many instances, patients require help when lifting one or both legs into and out of bed. Our leg lifter range is specifically designed to promote greater independence in this task, minimising the need for additional carers and ensuring safe, efficient leg lifting. Each leg lifter is crafted from high-performance, non-slip materials, providing a secure grip underfoot and instilling confidence in users by preventing slippage.

HD DELUXE™ FOOTSTOOL

Designed to provide extra height that delivers added comfort, stability, leverage. It can even be used to administer personal care.

HIP ASSIST PACK

The Hip Assist Pack combines a series of essential in-bed aids for those who are waiting for hip surgery or recovering from hip replacements.

LEG LIFTER

Where lifting legs into bed is a problem, this wipeclean leg lifter allows users to get into and out of bed independently.

WEBBING ROPE LADDER

This is ideal for maintaining independence and offers support during rehabilitation, enabling patients to sit up and lie down in bed without assistance from a carer.

PRODUCT SPOTLIGHT

EASY LEG TURNER

Simple but brilliant, this leg lifter allows a carer to safely raise a person's legs and swivel them into or out of bed – all in a matter of seconds.

TO VIEW OUR FULL RANGE OF POSITIONING PRODUCTS, VISIT OUR **WEBSITE** AT **WWW.HOSPITALDIRECT.CO.UK**

TRANSFER – BED

For both lateral and sitting transfers, we offer optimal solutions tailored to various scenarios. Whether transitioning from a surgical table to a hospital bed or moving into your bed, our products ensure seamless and efficient transfers.

EXTENSION STRAPS – WIPECLEAN

Extension Straps reduce the risk of caregivers over-stretching and over-reaching during supine patient transfers.

FLEXISLIDE®

FlexiSlide® Single-Use Non-Woven Patient Transfer Sheet enables seamless lateral transfers for as little as £2.00 a person.

HD EEZI-TRANSFER™ SITTING BOARD RANGE

Our Eezi-Transfer™ Sitting Board Range include Bridging and Curved boards perfect for sliding between two surfaces.

MORTUARY AND PORTERING

Ensuring both efficiency and dignity is paramount when handling the deceased. Our portering and mortuary solutions are carefully made to offer innovative support, providing convenience for staff while upholding the highest standards of respect for the departed.

MORTUARY BODY SLING

Mortuary Body Hoist takes the difficulty out of lowering the deceased into coffins.

MORTUARY FRIDGE BAND

For use by mortuary technicians to secure the arms and legs of the deceased within the confines of their fridge tray.

HD EEZI-TRANSFER™ LATERAL TRANSFER BOARD

This Board is perfect for any healthcare environment where a patient requires a safe sliding transfer from one lying surface to another.

PRODUCT SPOTLIGHT

XCCUBE®

Today, the XCube® system is replacing concealment trolleys across healthcare organisations. It is kinder to the deceased, offers greater care, dignity and discretion and allows staff to show respect to the departed patient and their family. The XCube® also removes the need to physically transfer the deceased in wards or departments.

With organisations needing to cater for a variety of patients with different beliefs, practices and religions, handling the deceased can often cause distress. XCube® is the solution, ensuring no physical transfer of the deceased is necessary in the ward or department where they died.

XCube® – a solution for the 21st century.

TRANSATLANTIC ROLLBOARDS

Our range of Transatlantic Rollboards make it easy for health professionals to transfer a patient between two lying surfaces.

TO VIEW OUR FULL RANGE OF POSITIONING PRODUCTS, VISIT OUR WEBSITE AT WWW.HOSPITALDIRECT.CO.UK

X-RAY, MRI, CT, RADIOLOGY AND IMAGING

Our exclusive range of radiology products helps to support acute departments that require precise patient positioning when taking imagery. Our systems change radiology services for the better, helping reduce handling risks associated with mobile x-ray services such as excessive movement of patients, increased risk of ventilator-induced pneumonia, skin tissue damage, and poor patient handling by staff. Our exclusive range helps to reduce the amount of staff needed to move any given patient whilst also increasing the welfare of both healthcare professional and client.

X-RAY PLATE HOLDER – QUILTED

The X-Ray Plate Holder Insertion System makes it easy to slide an x-ray cassette behind/under patients. Available in both Washable and Disposable versions.

X-RAY PLATE INSERTION TUBE

The X-Ray Plate Insertion Tube makes it easy to insert x-ray cassettes with x-ray cassette covers. Available in both Washable and Disposable versions.

TRANSATLANTIC ROLLBOARDS

OUT PATIENTS/DISCHARGE PACKAGES

Hospitals today often encounter challenges such as staff shortages and extended waiting lists. Our expansive product range is frequently utilised by hospital discharge teams to develop tailored packages that facilitate a patient's transition back into the community, thereby alleviating hospital bed occupancy. Our products and assistive equipment are highly effective in supporting rehabilitation programs endorsed by physiotherapists and occupational therapists.

SIBA® SATIN IN BED SYSTEM

An extensive range of in-bed care products designed exclusively with our own poly-cotton and satin weaves.

FLEXICARE 4-WAY

Helping patients who require 24/7 in-bed care, to remain comfortable whilst caregivers perform easy, safe patient positioning.

FISHERMANS LEGS/PRO DRESS ASSIST PACK

Getting dressed in bed has never been easier – the Fishermen's Legs enable dignified dressing for patients who need carer assistance.

HIP ASSIST PACK

The Hip Assist Pack combines a series of essential in-bed aids for those who are recovering from hip replacements.

ANTI-SLIP SLIDE SHEET

Allowing patients to help themselves get into and out of bed whilst reducing the risk of falling.

BED LOOPS

Patients who struggle to turn in bed can use these Bed Loops to securely reposition themselves and safely move to the edge of the bed.

ACCREDITATIONS

ISO 14001 is an internationally agreed standard that sets out the requirements for an environmental management system. It helps organisations improve their environmental performance through more efficient use of resources and reduction of waste. It also helps to reduce operating costs and helps maintain margin under price pressure. Being awarded ISO14001 boosts the reputation of HD and gives access to customers that demand their suppliers hold a certified environmental management standard.

ISO 45001 is the world's international standard for occupational health and safety, issued to protect employees and visitors from work-related accidents and diseases. We are not required by law to implement ISO 45001, but it can help provide a structured framework for ensuring a safe and healthy workplace. Being awarded ISO 45001 status reduces downtime and overall costs, which can be reflected to our customers.

ISO 9001 is the international standard that specifies requirements for a quality management system (QMS). We use the standard to demonstrate the ability to consistently provide products and services that meet customer and regulatory requirements. Obtaining this accreditation proves that HD make a commitment to achieving consistent quality. We always aim to strive to ensure a high customer satisfaction and higher perceived quality of customer service.

CPD CERTIFIED
The CPD Certification Service

CPD stands for Continuing Professional Development. CPD is recognised as an independent accreditation that supports the obligations and policies of professional bodies and academic institutes. HD have our courses approved by CPD to ensure that expected levels of training is provided for healthcare professionals. By having CPD approved courses, we can offer quality training that meets set requirements.

MEMBERSHIPS

Shropshire Chamber

Shropshire Chamber of Commerce allows us to interact with other local businesses to build connections. Over the years, we have also used the Chamber to invest into our employees by sending them on a series of different training courses held by the organisation. It's a pleasure to be a trusted long-term member of the chamber, and we are proud to partner with them.

Cool Shropshire & Telford

Cool Shropshire is the Shropshire Council initiative for an environmentally clean and zero-carbon operation by 2030 and covers all the major pillars of environmental care. HD is a keen supporter of this and other initiatives – including Healthcare market initiatives, that contribute to a cleaner living and working environment. HD is keenly involved with Shropshire projects that deliver power from green hydrogen.

MEDILINK

Medilink Midlands is the Midlands Life Sciences industry association with a vision to stimulate the growth of the Midlands life science sector by helping companies establish, develop and grow. Its network of more than 5,200 contacts in over 2,300 organisations represents all aspects of the sector; from multi-nationals to high-potential start-up companies, as well as the NHS and Universities.

nbe

The National Back Exchange (NBE) is a leading authority in moving and handling. HD has worked with the NBE for over a decade and is recognised as a leading support in the industry through our product solutions, leading knowledge base, and services. Being a member shows commitment to the industry and keeps HD at the forefront of safe practices, whilst giving our customers assurance that we are experts in our field. We are always proud to work with the best in the business

Zero Carbon Shropshire

Zero Carbon Shropshire is an action-driven partnership of local people and businesses, all dedicated to helping our county fight climate change. Together, we're taking a coordinated, collaborative response to the climate and ecological crisis at the local level.

Such a pleasant experience in dealing with Hospital Direct. A company who actually cares.
